DEVOLUTION LABS

AI Workforces for Enterprise.

COMPANY OVERVIEW & CAPABILITIES — 2026

WHAT WE DO

We deploy complete AI workforces.

Devolution Labs builds and operates enterprise AI workforces for organizations that want to reduce operating costs, scale faster, and outperform their competition — without adding headcount.

We ingest your company's data in seconds, then deploy a fully structured AI operating layer: a virtual executive at the top, functional departments in the middle, and specialized agents executing at the base.

It runs on your infrastructure. Your data never leaves your environment. We manage the entire workforce as a monthly managed service, with the option to purchase outright at any point.

- → Built on **Anthropic's Claude platform** — enterprise-grade
- → **Full org chart structure** — CEO, departments, teams, age
- → Deployed and operational **in days, not months**
- → **No AI engineers required** on the client side
- → Live command dashboard — **full leadership visibility**
- → Monthly managed service — **own it outright at any time**
- → Every deployment scoped **specifically to your business**

THE ARCHITECTURE

A complete org chart. Built from AI agents.

THE AGENT CAPABILITIES

Agents built for every business function.

OPERATIONS

Exception + Routing Agent

Monitors workflows in real time, routes tasks automatically, escalates only what requires human judgment. Runs 24/7 without instruction.

MARKETING

Content + SEO Agent

Publishes optimized content weekly, manages social channels daily, tracks rankings, and adjusts strategy. No marketing staff needed.

SALES

Lead Generation + Response Ager

Actively finds in-market buyers, responds inbound inquiry in seconds, follows up unt conversion. 150–300 qualified leads per m

FINANCE

Reporting + Analytics Agent

Pulls data, compiles management reports, surfaces anomalies, and delivers leadership briefings on schedule. No analyst hours required.

COMPLIANCE

Audit + Documentation Agent

Monitors regulatory changes, maintains audit trails, generates required documentation, and flags exposure before it becomes a problem.

CUSTOMER SUCCESS

Retention + Service Agent

Sends reminders, books appointments, m follow-up, and proactively reaches out to a customers before they churn.

THE PLATFORM

The infrastructure behind the workforce.

Devolution Labs is built on a proprietary orchestration platform that functions as a complete AI operating system. Agents have roles, rep budgets, and goals. The system runs continuously, enforces governance, and keeps humans in full control.

ARCHITECTURE

Org Chart Structure

Every agent has a defined role, reporting line, and budget. The hierarchy mirrors your organization exactly from executive layer to individual task agents.

INTELLIGENCE

Goal Alignment

Every task traces back to the company mission. Agents understand what they are working on and why, ensuring every action advances your business objectives.

OPERATIONS

Autonomous Scheduling

Agents activate on a defined cadence, che work queue, and execute without instructi Delegation flows automatically up and dov chart.

FINANCE

Budget Enforcement

Monthly budget limits per agent. When an agent reaches its limit it stops. No runaway costs. Full spend visibility at every level of the hierarchy.

COMPLIANCE

Immutable Audit Log

Every conversation, every decision, and every tool call is traced and logged. Full accountability across every agent in the system at all times.

GOVERNANCE

Human Override at Any Level

You are the board. Approve strategies, ove decisions, pause or terminate any agent a time. The AI workforce reports to you.

THE ENGAGEMENT MODEL

Live in days.
Owned in 6 months.

Every Devolution Labs engagement begins with a scoped discovery. We learn your structure, your data, and your objectives. Then we build and deploy — typically within 3 to 5 business days after NDAs and access are in place.

Our model is a **monthly managed service fee for up to 6 months**. At any point during that period, the client can take full ownership of the platform outright, with ongoing support included.

No long-term commitment required upfront. No AI engineers needed on your side. We own the performance — not just the software.

MONTH 1

Deploy and activate

Discovery, scoping, build, and go-live. First agents operational. Initial re within the first 30 days.

MONTHS 2–4

Scale and optimize

Additional agents deployed. System learns your data. Performance imp Monthly reporting delivered.

MONTH 5–6 / ONGOING

Own it outright

Full platform ownership available at any time. Ongoing support include workforce runs indefinitely.
